RESUME

Guangyu (Kevin) Liang

Personal Resume

School： Tsinghua University　　Hometown：Beijing, China

E-mail：gl585@cornell.edu　　Birth：2007.10

Education

2023 Fall -- Present　Tsinghua University　Undergraduate Student, Biomedical Engineering

- **GPA:3.9/4.0**
- **Main Courses:** Calculus, Linear Algebra, Fundamentals of Physics, Electronic Circuits and Systems, Principles of Chemistry, Organic Chemistry and Biochemistry, Human Structure and Function, Principles of Biomanufacturing
- **Other Courses:** Principles of Economics, Introduction to Eastern and Western Philosophy.

2026 Spring　Cornell University　Exchange Undergraduate, Biomedical Engineering

- **Semester ongoing**
- **Main Courses:** Principles of Neurobiology, Electrophysiology and Chemical physiology, Principles of Machine Learning, Intro to Deep Learning

Research

2026--Present　Cornell University　Chris Xu Lab / Applied and Engineering Physics

- **《Multi-functional Neural Biosensor based on double-clad fiber fabrication》（As primary person）**
  Project began in Feb 2026 and is still under development
  Gained experience on neuroimaging, data analysis, forged multi-cultural competence.

2024--2026　Tsinghua University　Xiaochuan Dai Lab / Biomedical Engineering

- **《Large-scale, high-complexity neural cyborg tissues based on bioelectronic scaffolds and artificial vascular networks》（As primary person）**
  One patent under review of China National Intellectual Property Administration（as primary developer）
  Successfully secured funding from Beijing Natural Science Foundation and Tsinghua University.
  First time as primary developer to lead a program, developed multiple skills and leadership.

2024　Tsinghua University　Xiumei Wang Lab / Weixian College of Engineering

- **《PCL 3D-Printed Scaffold Loaded with Fe_3O_4 and Its Characterization》(Course Final Project)**
  Gained fundamental knowledge in materials science and life-health disciplines.
  Acquired basic technical skills -- 3D printing, materials characterization, and wet-lab experience etc.

Awards

China National Scholarship for Undergraduate Students (2024),
Tsinghua University Qin Xiao Scholarship (2025),
Tsinghua University Comprehensive Excellence Scholarship (2025, 2024),
Finalist in the CCF Intelligent Agent Development Competition;
Outstanding Student Leader of Beijing (2023)

Skills

Computer Skills: Proficient in C, Python/Numpy/Pytorch, Matlab, autoCAD, Solidworks.
Have made Machine Learning Projects during courses
Experienced with other programming language and video/content editing platforms.
English: TOEFL 106, able to communicate fluently with native speakers
French: A2 level, able to handle daily conversations with native speakers
